

# Navy and Marine Corps Public Health Center "Quick Hits"

Mar-Apr 2011

## Japan: Public Health Resources Online

The Navy and Marine Corps Public Health Center (NMCPHC), in cooperation with BUMED and PACOM, have established a [website](#) with resources designed to provide situational awareness on the response to the Japan earthquake and tsunami. The page is divided into three sections: FAQs, Beneficiary Information and, Health Care Provider and Allied Sciences Information.

### "Ask Us!" Email for Healthcare Providers with Japan-related Questions

NMCPHC has created a generic email address intended for DoN healthcare professionals with questions or concerns related to public health issues related to the Japan earthquake / tsunami.

This email address ([japan@nehc.mar.med.navy.mil](mailto:japan@nehc.mar.med.navy.mil)) is ".mil" access only and can be found at the bottom of the NMCPHC Japan Earthquake web page. Fleet surgeons, fleet and TYCOM staff, and MTF staff are encouraged to use this as another source of information for questions and issues of concern. Questions will be directed to the appropriate NMCPHC staff and a response will be promptly directed back to the originator. Some questions and answers may be incorporated into updated FAQs on our web site.
